

Cloud Library for iOS Devices

Installing the App

- Open the App Store on your Apple device.
- Search for “Cloud Library” in your device’s app store.
- Choose to “get” the app. Wait for the app to download and install.
- Choose to “open” the app once installed.
- Once the app is launched, click “Connect to your library”.
- Select your Country as “Canada”, Province as “Ontario” and Library as “Oshawa Public Libraries”.
- Enter your Library Card Number and Password to log in.

Tip: If you have never before set a password for your card, this should be set to the default value ‘1234’.

Accessing Books on Your Device

- Browse featured titles on Cloud Library’s home screen, or click the menu icon and select “Browse” to choose a set of categories that interest you. Alternatively, click the magnifying glass to search for specific authors or titles.
- Tap a book cover to see its details and availability.
- If the title is available, press “borrow” to add it to your library and view it immediately. If it is currently unavailable, you can place a hold by pressing “hold”.

Tip: When a book is opened for viewing, you can access your display settings or return to the home screen by tapping once near the centre of the page. This will open the reading menu.

Refining Your Search

- Press the Menu button followed by “Filters” to select titles which match your criteria. You can limit your search to eBooks, to Audiobooks, or exclusively to titles which are currently available for immediate loan.
